

## Cloaks of Passage - Beginners' Course

When we are in dialogue with others, we tend to unconsciously think in boxes. *Cloaks of Passage* is a model that inspires you to think outside the box. It inspires you to think creatively, which can help you connect with others and improve your ability to have a fulfilling two-way dialogue.

We all carry our own cultural baggage with us in every conversation we have, be it with friends, relatives or colleagues. This baggage is made up of our views and opinions, and the experiences that we have accumulated throughout our lives. We mostly think and judge from the perspective of our own context, which makes it hard to open up and really hear the ideas and solutions concealed in the stories of others.

During the three-day training Cloaks of Passage, you will become more conscious of who you are and what has shaped you. Together, we will explore your family history and your personal boundaries and vulnerabilities. You will learn how to open up to the points of view of others and create meaning and interaction in the true sense of the word dialogue.

This can be an inspiration to find new, creative pathways in the communication and interactions in both your personal and professional life.
